Concluding Remarks
Prof.Battu Ganga Rao, Registrar, Adikavi Nannaya University,
Rajamahendravaram

CONCEPT NOTE

Online has become the default mode of education during this long lockdown period in the wake of Covid-19.

About 60 million students across the globe, are limited to home during this period - which generally see a flurry of curricular and assessment activities.

Institutions and students alike are under pressure to not lose academic time and re-invent their teaching-learning in the only possible way – go completely online.

What does this mean for the institutions and academic leaders, administrators and students in the long run is getting clearer.

The COVID-19 pandemic is set to change the world sooner than we know. The way our governments, institutions, organizations, and people think and function, will radically change - perhaps for the long term.

Among many economic sectors, the higher education sector is undergoing a tectonic shift right now. Which was not been forecasted.

Millions of students across the globe have been driven out of their university spaces, and professors are confined to their homes.

Higher education stands disaggregated, and faculty and students are grappling with the sudden new norm of completely tech-mediated teaching and learning.

Several efficiency issues are there now such as :

- Dreadful completion rates in the digital higher education system;
- Non-existent rigor of assessment;
- Non-establishment or non-transparency about improvement in knowledge, application and competency in learners;
- Non-contextual delivery (context is a key success factor in higher education; it influences the learning outcomes. Faculty in a classroom setup can size-up and deliver the class);
- Practitioners trying to just ‘transpose’ classroom to the digital medium, which is causing many problems;
- Doing “live” classes may not bring in efficiency or effectiveness;

While the land is fertile for habits to change, the new digital landscape has its unsolved problems, and hence it is where it is.

The long term and sustainable triumph of this tectonic shift will depend on seven major elements of online learning.

1. Online learning is NOT a library of video lectures and e-books that converts class-notes into PDFs.
2. Creating high quality digitized learning content must be contextualized and ‘byte-sized’ to make learning interesting and engaging. Doing this takes a rare skill set which few organizations in the world can boast of. Universities need to collaborate with such organizations for their digital pivots to be successful.
3. Subject matter covered in classroom is to be delivered online, but with technology as the intermediary. Blind replication of the same is a bad idea; it requires a great deal of understanding & application of learning science and digital pedagogy. Every teaching faculty needs to be enabled with this knowledge, or else collaboration with experts is the way forward.
4. Classrooms have typically diverse learner groups. In classical pedagogy, the best of teachers and subject matter experts derive a content-context cluster as a mean of the class’ collective ability and prior knowledge. Then the teaching–learning transaction is crafted according to that constructed mean. This will not and cannot work in online learning. Institutions need to spend as much time on the context for the diverse learner profiles, as on the content, and weave it into the program design.
5. New technologies including the emerging sciences of artificial intelligence and deep learning models can help us create customized learning plans and methods. Higher education institutions must embrace these quickly to overcome the ills of current digital higher education.
6. Online learning is not about ONE pedagogical model but an aggregation of various models. And it is indeed a specialized learning science that combines learning psychology, behavioral analytics, content delivery, and assessments to gauge and measure individual learner’s journey and progress. Working with specialists and ‘hand-stitching’ a delivery mechanism is the key.
7. Of course, even in the post COVID-19 era, offline or conventional education models will not become obsolete. They will survive. However, blended learning (a combination of classroom and online modes) will be the norm. Institutions and teachers will blend the two judiciously according to the context and the content.
8. In sum, the newly realized need for establishing mature online education models, can be successfully met by making these “Queen sacrifices”.
9. Faculty to let go off their existing practices of transposing classroom to online medium without applying the ‘science of digital learning.

10. Universities to let go off their academic know-all stance and become willing to collaborate with digital learning specialists to train their teachers and re-design higher education for the newest online education world.
11. The next frontier to be faced is research – also monopolized by large, well-funded systems or organizations. How online learning will change the face of research will be an interesting crystal ball gazing exercise to do.

This is the time to re-think and switchover the teaching learning process in to the digital platforms and update the technological grip by students as well as teachers.

- ❖ **Resources for Online Teaching**
- ❖ **Staying Connected With Your Class**

- Uploading **syllabi**, course readings, and the updated course schedule will help keep all information centrally located and easily accessible.

Faculty can send an **email** (with or without attachments) to the whole class

- **Video Conferencing**

This may be the best option for faculty replicating an in-class experience. Bear in mind that a successful web meeting requires technical preparation by both you and the students. Planning to take a very active moderator role can help with the inherent lack of non-verbal cues and make your session feel more personal.

Class Meetings, Discussions, Office Hours

There are a number of digital tools that may be used to hold synchronous or asynchronous conversations with students in an online course.

Synchronous ("Real Time") Conversations:

Sharing Course Materials, Readings, Lectures

These tools can support the sharing of course materials, supplementary information, and even lecture content with students. Organizing these materials according to week or topic will help students navigate the resources you provide.

Assignments, Exams, Grades

Create a space for students to turn in papers or other assignments.

- Students could submit assignments.

- Faculty can give **grades** and feedback through this tool as well.
- **Exams** or quizzes can be delivered

Software Access

Most of the software used in classroom labs can also be installed on students' personal computers, or is available for use through the Virtual Computing Lab.

The IT-maintained Available Software web site describes how to access such software, if available.

Support Options & Information Sessions

Faculty are invited to join us for an information session or schedule a personal consultation.

- ✓ **Resources to provide psychosocial support**
- ✓ **Digital learning management systems**
- ✓ **Systems built for use on basic mobile phones**
- ✓ **Systems with strong offline functionality**
- ✓ **Massive Open Online Course (MOOC) Platforms**
- ✓ **Self-directed learning content**
- ✓ **Mobile reading applications**
- ✓ **Collaboration platforms that support live-video communication**
- ✓ **Tools for teachers to create of digital learning content**
- ✓ **External repositories of distance learning solutions**

ABOUT THE UNIVERSITY

Adikavi Nannaya University (ANUR) was established in the year 2006 at Rajamahendravaram, E.G.Dist, A.P.

The motto of the University is “సర్వ తర వర్గ - వర్తత శ్రజా” which highlights the role of Universalization of Education and Development of Public.

ANUR is the Largest University in the State of AP with 440 affiliated colleges.

It offers students a remarkable range of academic course that are paired with an extraordinary breath of extracurricular activities and opportunities for research, independent studies and public service.

Adikavi Nannaya University has a vision of achieving excellence in the near future and becoming forerunner of designing and initiating novel programmes that are relevant to the demands of Godavari Districts as well as Andhra Pradesh.

THE UNIVERSITY COLLEGE OF EDUCATION

Visualizing the need for quality Teacher Education, the University College of Education was established in the year 2014 with the approval of NCTE for the B.Ed course and M.P.Ed in the academic year 2017-18.

There are about 70 affiliated B.Ed Colleges, 06 M.Ed Colleges, 11 B.P.Ed , 4 D.P.Ed colleges which are affiliated to ANUR.

YOUNG RESEARCHERS FORUM

Vision :

Our vision is to contribute excellence in science and research which serve as a valuable resource for society, and promote Academic / Research integrity and accountability.

Attention to scientific issues of national relevance as well as of global concern, Breadth of understanding, knowledge of the human sciences, appreciation of intellectual excellence and creativity, spirit of exploration, rationality and enterprise.

Mission :

Our mission is to generate new knowledge by engaging in cutting-edge research and to promote academic growth by offering good research orientation and attitude to all the students and Research Scholars.

To undertake collaborative projects which offer opportunities for long-term interaction with academia and Research.

To develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge in a range of professions.

Objectives of the Forum:

- **To inculcate scientific attitude among children, youngsters and adults.**
- **To bridge the gap between theoretical and practical scientific knowledge in the people.**
- **To instill research wakefulness among Teachers.**
- **To indoctrinate research consciousness among Teacher Educators.**
- **To implant scientific research in the students mind.**
- **To create research awareness in the society.**
- **To eradicate stigma in the society on innovation of news inventions and techniques.**
- **To balance the people of the country on par with contemporary International Research Inventions.**
- **To take-up National and International burning issues as research projects for the benefit of the society.**
- **To prepare the people for happy living and world peace.**

REPORT ON FACULTY DEVELOPMENT PROGRAM

TITLE: CHALLENGES AND STRATEGIES OF TEACHING POST COVID-19

DATES: 11TH – 15TH MAY 2020

PREAMBLE:

With the great initiation of the Hon'ble Vice-Chancellor of Adikavi Nannaya University, Rajamahendravaram a 5 day Faculty Development Program was conducted from 11th May 2020 to 15th May 2020 by University College of Education and Young Researchers Forum, Mumbai, Maharashtra through online mode using Google Meet web Plat Form. This Faculty Development Program was the self financed program and no fee was collected from any participant. The Convener is the sponsor of this FDP.

ORGANIZING COMMITTEE:

PATRON:

Prof. Mokka Jagannadha Rao
Vice-Chancellor
Adikavi Nannaya University
Rajamahendravaram

CONVENER:

Prof.Kondru Subba Rao
Principal
University College of Education
Dean, Faculty of Education
Chairman, BOS in Education(UG & PG)
Adikavi Nannaya University
Rajamahendravaram

ORGANIZING SECRETARY:

Dr.N.V.S.Suryanarayana
President, Young Researchers Forum
AO, Central Tribal University of AP
Srikakulam

CO-CONVENERS:

Dr.R.S.Varahala Dora
Assistant Professor
University College of Education
Adikavi Nannaya University
Rajamahendravaram

R.Sambasivarao
Assistant Professor
University College of Education
Adikavi Nannaya University
Rajamahendravaram

RESOURCE PERSONS

1. Inaugural Address : Prof. M.Jagannadharao, VC,ANUR
2. Key Note Address : Prof.G.P.Thakur, Director, Centre for Advanced Research on Development & Change, New Delhi
3. Day 2 Speech : Prof.V.Krishna Mohan, Registrar, Andhra University, Visakhapatnam
4. Day 3 Speech : Prof. H.Lajipathi Rai, Former Vice-Chancellor, Dr.BR Ambedkar university, Srikakulam
5. Day 4 Speech : Prof. V.Bala Mohan Das, Former Vice-Chancellor, Acharya Nagarjuna University, Guntur
6. Day 5 Speech : Prof. Jaysankar Reddy, Professor, Christ University, Bangalore.
7. Faculty Interactions : Prof.K.S.Ramesh, principal, UCAC, ANUR

PARTICIPANT'S PROFILE:

Teachers working in Colleges, Higher Education Institutions, and Universities were allowed to participate in this FDP. An active web link was communicated through broacher and WhatsApp message. More than 400 teachers were registered and participated from 22 states of the country.

PLANNED TRAINING OUT COMES:

1. To know the technological support and techniques to overcome the problems in Teaching and Learning.
2. To prepare the Teacher to switchover themselves to virtual method of Teaching and Learning to face the problems and challenges.
3. To identify the new methodologies and strategies in teaching post Covid-19 circumstances.
4. To understand the student mindset and to know how to train them with different new techniques.
5. To train the teacher to upgrade themselves to handle Research and Development activities.
6. To create a platform to discuss about their difficulties and get the suggestions from the contemporary teaching fraternity and experts.
7. To refresh the teacher and brush-up his potentialities to face the challenges.
8. To prepare an action plan by all the participants to face further teaching challenges with available techniques.

DESCRIPTION ABOUT THE PROGRAM:

The Faculty Development Program was started on 11th May 2020 by 5.30 PM with inaugural session. The inaugural session was initiated by the organizing secretary Dr.NVS Suryanarayana. He requested the convener of the FDP Prof.Kondru Subbarao to offer his opening remarks. In his opening remarks the convener explained the aims and objectives of the program and introduced the resource persons to all the participants. He conveyed gratitude's to Hon'ble Vice-Chancellor Prof.Mokka. Jagannadha Rao garu for his guidance and support.

Prof.M.Jagannadha Rao garu participated as a Chief Guest of the Inaugural session and he gave the inaugural address. In his inaugural address VC sir enlightened the need and importance of new methodology of teaching in post Covid-19, this in turn reflects his vision and dedication on academics. Further he suggested the trainers and participants to focus on need of strengthening the students and teachers in integration of technology, revision of text books according to the Teaching scenario of post covid-19, developing various tools and techniques of evaluation and he is more particular in developing new strategies to teach Science and Engineering courses where practical work plays an important role. He also said that this is big opportunity to teaching fraternity to develop towards remote and global teaching.

After inaugural address of the Vice-Chancellor, Prof.G.P.Thakur, Director, Centre for Advanced Research on Development & Change, New Delhi was delivered the Keynote address and Kum. Aleshya was introduced Prof.Thakur to the participants. In his keynote address Prof.Thakur also enlightened the participants in the methods and strategies of post Covid-19 teaching and his expertise clarified the doubts of the participants. Finally the convener requested all the participants to bring fruitful out comes at the end of this FDP as he promised to our VC sir. The first day session was concluded with the interaction session for the clarifying the doubts of the participants on the concept.

On the 2nd day i.e. 12-05-2020 the program starts by 5.30 PM with the invitation of the Organizing Secretary Dr.N.V.S.Suryanarayana. After that the convener delivered his opening remarks by reviewing the yesterday's program and explaining the details of the current session.

Prof.V.Krishna Mohan, Registrar, Andhra University was participated as the speaker of the full session of 2nd day program and he delivered his speech on the topic "Present Scenario of Teaching and Learning". Was introduced the guest to participants. All the participants had a great lecture on Present Scenario of Teaching and Learning by Prof.V.Krishna Mohan, Registrar, Andhra University. Really all the participants are mesmerized by his excellent and more informative speech. As the Organizing Secretary said, the strike rate of Krishna Mohan sir is more than 200 with fours and sixes. Visualizing the thoughts of our VC sir, he enlightened the present scenario of teaching learning and draw backs in present education system which is to be rectified and updated to succeed in the post covid-19 teaching. Especially he emphasized on Higher Education. As he said entry in to Higher Education leads to development of country in industry and other sectors which leads to sustainable development of the country. He also enlightened on RUSA-1 & RUSA-2 funds. Definitely all of us have to utilize such a wonderful opportunity giving by government of India. He also enlightened on various methods and techniques and integration of ICT in teaching learning of various courses like MBA, Engineering, and Special Education. As usual this session also concluded with interaction session and Prof.Krishna Mohan garu clarified all the doubts of the participants and also there held a positive discussion over some concepts of the topic of the day. All the participants expressed their happiness towards the FDP more particularly on the current session. Finally Dr.Dora, Asst.Professor, UCed, ANUR proposed formal Vote of Thanks.

On the 3rd day i.e. 13-05-2020 the program starts by 5.30 PM with the invitation of the Organizing Secretary Dr.N.V.S.Suryanarayana. After that the convener delivered his opening

remarks by reviewing the yesterday's program and explaining the details of the current session. In his opening remarks the convener explained the history Adikavi Nannaya University, role of the then and present Vice-Chancellor in the development of the university and history of University College of Education in detailed.

Prof.H.Lajipathi Rai, Former Vice-Chancellor, Dr.B.R.Ambedkar, University was participated as the speaker of the full session of 3rd day program and he delivered his speech on the topic "Innovative Strategies and Methodologies". All the participants were enlightened with the remarks and suggestions given by Prof.H.Lajipathi Rai garu. As he mentioned research going on in higher education should have impact on society and it should help the society for development in various aspects. But that aspect is missing in present research going on in Higher Education institutions. There is a deadly need to focus on it. Present scenario of research in Higher Educational institutions reflects in his wards "can we make a conscious move from volume to valume i.e number to worth. He also focused on how the teacher has to be in this online teaching process due to covid-19 pandemic. He made a strong note on taking online classes in this crisis period as more than 28 crores of young are there in our population and they should not be ideal with wasting time.

This 3rd day session was also concluded with the discussions and clarifying the doubts of the participants on various strategies and methodologies explained by the speaker. Finally Dr.Dora, Asst.Professor, UCED, ANUR proposed formal Vote of Thanks.

On the 4th day i.e. 14-05-2020 the program starts by 5.30 PM as usual with the invitation of the Organizing Secretary Dr.N.V.S.Suryanarayana. After that the convener delivered his opening remarks by reviewing the yesterday's program and explaining the details of the current session. In the opening remarks the convener presented a brief note on Young Researchers Forum, Mumbai, Maharashtra as YRF is one of the host of the program and also the convener is the life member of YRF.

Prof.V.Bala Mohan Das, Former Vice-Chancellor, Acharya Nagarjuna, University was participated as the speaker of the full session of 4th day program and he delivered his speech on the topic "Research and Development in post Covid-19". Kum. Ch.Aleshya was introduced Prof.V.Bala Mohan Das garu to the participants. In his speech He made an elaborative speech on Research and Development, essential qualities of a good Researcher, scenario of present research, humorously some abbreviations after Covid-19, importance of MOOCS and SWAYAM programs in Teaching post Covid-19 and more effectively the 10 commandments to be followed by the researchers for successful research outcomes and so on. Really he is a walking encyclopedia.

This 4th day session was also concluded with the discussions and clarifying the doubts of the participants on research and development in post covid-19 explained by the speaker. Finally R.Sambasivarao, Asst.Professor, UCED, ANUR proposed formal Vote of Thanks.

On the 5th day i.e. 15-05-2020 the program starts by 5.30 PM as usual with the invitation of the Organizing Secretary Dr.N.V.S.Suryanarayana. After that the convener delivered his opening remarks by reviewing the yesterday's program and explaining the details of the current session. In the opening remarks the convener said that this program is the brainchild of the Hon'ble Vice Chancellor Prof Mokka. Jagannadharao garu. As we all know that lock down was announced from the mid march 2020 due to COVID-19 Pandemic. In this context UGC directed all the universities to to conduct classes through online and also to organize webinars

and FDP and awareness programs on this crisis through webinars. In this regard I can proudly say that our Adikavi Nannaya University is the torchbearer in such programs suggested by UGC. By the directions and guidance of our VC sir, in all the constituted colleges in turn in all the departments the teachers are conducting online classes and revising the syllabus for the benefit of the students. This process is continuously going on till today and until the physical class work begins. Our teachers are also counseling our students to relieve them from stress through university counseling centers. Under the able guidance and efforts of our VC sir this FDP was designed and executed. Prof Jagannadharao garu put his efforts for involving such eminent personalities as speakers of this FDP. So continuously we are receiving appreciations regarding this FDP and high response was received to this program with more than 400 participants from all over the country. In this context I feel that it is mandate to appreciate the Organizing Secretary Dr.NVS Suryanarayana, and the Co-Conveners of the program Dr.R.Sambasivarao and Dr.R.S.Varahala Dora for their continuous support for the success of this FDP. And other departments of ANUR are conducting webinars on various topics. On whole I can proudly say that the Adikavi Nannaya University is in first place in the state in online activities because of the guidance, hard work of our great leader, guide and good academician Prof.M.Jagannadharao garu.

Prof.Jaya Sankar Reddy, Department of Psychology, Christ University, Bangalore was participated one of the guest of the day and Dr.N.Sujata, Assistant Professor, UCED, ANUR was introduced the guest to the participants. In this session Prof.Jayasankar Reddy was explained the online tools and techniques to be used to online teaching in covid-19 pandemic. More particularly he explained about Google Classroom app which is so useful to share the content and live teaching through online mode. He also explained the drawbacks of the presents higher education system and the steps to be taken to overcome such problems.

After completion of the Prof.Jayasanakr Reddy's session Prof .K.S.Ramesh, Principal, UCAC & EC Member, ANUR conducted interaction session over the 5days program along with Prof.Jayasankar reddy. Before starting the interaction session Dr.R.S.V.Dora, Asst.Professor, UCED, ANUR introduced Prof.Ramesh to the gathering. Both the resource persons organized the interaction session in a smooth manner and they clarified all the doubts of the participants.

Before closing the session and the 5 day Faculty Development Program the Vice-Chancellor Prof.M.Jagannadharao garu blessed all the participants with his greetings.

Finally the FDP was closed with the concluding remarks and vote thanks by the Organizing Secretary Dr.N.V.S.Suryanarayana.
